

Name _____

Case Number and Material Type _____

LOOK:

Look at the label of the object to answer these questions:

What is the name of the object? _____

Place a star on the map below, indicating the location where the object is from.

THINK:

Look closely at the object to answer these questions:

What do you think the object is used for?

Why did the artist use this material to make the object?

What other material do you think they could have used?

Have you ever seen anything else that looked like your object? _____

Where? _____ What was it? _____

DESCRIBE:

Sketch or describe your object. What does it look like (size/shape/color/other)?

Now that you've had time to look closely at the object, what do you see that you didn't notice at first?

IMAGINE:

How would you use this object if you could use it for absolutely anything?
